

The Case against Bottled Water

Cost:

Half litre bottles cost any where from 25 cents (bulk) to \$ 1.50 if bought at a convenience store!

The price for 1 litre of water is .00066 cents (City of Windsor)

To fill a traditional bathtub with bottled water , it will cost you up to \$558.00

It would cost you less than 1 cent to fill the same bathtub with City water.

The Environment:

It can take over 1,000 years for a plastic bottle to break down in a landfill!

Safety:

City of Windsor water is treated with Ozone, which literally blasts bacteria, rendering it harmless!

There is presently no legislation on the testing of bottled water in Canada.

**WHAT YOU CAN DO:
WHENEVER POSSIBLE, PLEASE TRY TO LIMIT THE
USE OF INDIVIDUAL BOTTLED WATER.**

**IT WILL BE BETTER FOR YOU, AND FOR THE
ENVIRONMENT!**
