

## FEBRUARY 2009 WEBSITE REPORT

### ANNEX

#### STATE OF THE PLANT

The Annex currently has a Plant population of 244 people both Production and Trades. We have recently been notified that our Head inventories are on the high side and we may have to take corrective actions to align with demand. With WEP taking many down days that we have not, this will no doubt change as will begin to see down shifts and down days in our future schedules.

#### JOB POSTINGS

The Annex will have some jobs that will be going Company wide after the retirements occur. Once all jobs have gone departmental for bidding we will see them go company wide in the next posting some time in the end of March. Keep an eye on the Bid Site and the boards. We welcome all new successful applicants to our plant.

#### VACATIONS

Spring is here and that means vacation and shutdown are not far away. Please remember to book your vacation time early as it is by seniority until May 1/09. After May 1/09 it is on a first come basis. Don't forget to book or you could be hard pressed to get the time you may need.

Shutdown schedules have been released and the first week of shutdown is PP#27 June 29 - July 5/09, the second week of shutdown is scheduled for PP#34 August 17 - 23 /09.

#### RETIREMENTS / STEP

We would like to take this time to wish all members who are Retiring or taking STEP the best of luck as they venture into a new phase in their life.

#### THE ANNEX MOTORS FORWARD!
