

NOVEMBER 2009 WEBSITE REPORT

PENSKE

SAFETY REP AND ALTERNATE REP.

Congratulations to Randy Osborne who was appointed Health and Safety Rep and Dave Vizard who was appointed Alternate Health and Safety Rep.

ESSEX ENGINE

The company has posted one job for Essex Engine as of Nov. 30/09. Unfortunately, we now have to wait for Ford to amend the current PO and give us the start date. We are anticipating more jobs in the new year.

RRSP

The company and the union are currently in discussions about our negotiated RRSP plan along with the company match plan. At this current time we are still waiting on an answer from the company pertaining to this issue.

WORK RULES AND POLICIES

Over the last two months the union has been informed about current Penske Rules and Policies. We understand the right of the company to have rules and policies but it is UNACCEPTABLE for the company NOT to disclose these rules and policies during negotiations and with all the members. We have been facing numerous problems regarding their rules and policies.

In solidarity,

Joe Tremblay
Chairperson
Penske Logistics
