

OCTOBER 2009 WEBSITE REPORT

WINDSOR ALUMINUM

FORD 3.0L

The Month of October has not seen any changes to our build schedule. Our inventory at present is at 8,000 blocks, with 1,000 of them finished and ready to ship to our customer. They are scheduled to run 4,000 - 4,500 a week. It looks like this is going to be the trend through the end of the year.

GM 3.6L

When we reopened this department it was to be a 6 -8 week run of 3.6L blocks to help out with the extra pull from GM. At the time of this writing they have informed me that they will be running anywhere from 15,000 - 20,000 more blocks for GM. This demand means that we will be running through the end of the Month of November.

UNITED WAY

We will be starting the United Way campaign drive the week of November 2/09. We should be done canvassing on Nov. 13/09.

Please give what you can to this worthwhile cause. It is needed more now than ever.

In Solidarity,
Darby McCloskey
Chairperson
