

NOVEMBER 2007 WEBSITE REPORT

ESSEX ALUMINUM

Production

As of now Cast and Core room are running 5 days a week with a clean up on Saturday. The Clean room 5.4 3v is running 5 days a week with a clean up on Saturday. The Clean room 5.4 2v is running 6 days to keep up with the demand as of now. As of November 26 there were brothers and sisters that came from EEP and are getting allocated to the jobs as the people went to lay off. There were also people that were held out of seniority to train the people that were coming into the new jobs.

Over Time

There has been an improvement on the amount of over time that is being worked. Again if every one said NO to the over time there would more people that would stay at work. When a Company runs with the bare minimum it is not the Company that gets hurt it is the membership.

Retirement

To all the people that have retired I would like to take this opportunity to congratulate and wish you the best in your retirement. You have worked hard and long NOW it is time to enjoy it. To brother John Dinning thank you for all the years that you represented the members of EAP and most of all the way you helped and supported the office and myself.

Frank Kotow
Plant Chairperson
