

## DECEMBER 2006 WEBSITE REPORT

### WINDSOR CASTING

Windsor Casting presently has 432 members on roll.

The Company has handed the Windsor Casting plant a 6.9 million dollar task for the the first six months of the 2007 calendar year. This sounds absurd for a plant that is closing in July of 2007.

The Company has recently reduced 18 members in the WCP in an attempt to achieve part of this task.

The Block commodity continues to run on a 5 day operating pattern with the same for the Crank commodity.

Union awareness training will commence the week of January 08/07 with Health and safety to follow.
